

Virtual (local) Number Fax To Email Critical Information Summary

Information about the Service

The Service

A Virtual (local) number fax to email service gives your business the presence of a local fax number in any Australian capital city.

Virtual number fax to email service is for receiving inbound fax communications only.

Fax documents are received in the TelcoEdge cloud infrastructure and converted into a PDF or TIF file which is sent to you as an email attachment.

Other configurable options are also available to you, please contact our sales desk.

We provide you with an interactive interface where you can manage service preferences and view usage reports in real time.

Bundling

This service is not conditional on any bundling arrangements.

Minimum Term

1 month unless otherwise agreed or specified in an offering.

Information about Pricing

Callers pay the normal cost of a call to that local fax number as charged by their carrier. For example if the call is from the Sydney area to a Sydney (02) virtual (local) number fax service then the caller would be charged a local call by their carrier whereas if they call from say Perth to a Sydney (02) virtual (local) number fax service then the caller would be charged a long distance call by their carrier.

A mobile caller may pay more depending on their carrier.

You, the subscriber of the 1300 number, pay the fees as outlined in the below table.
